

PRESS RELEASE

CYBERNET MALAYSIA APPOINTED AS A DISTRIBUTOR BY SIGMETRIX.

CYBERNET Malaysia and Sigmetrix join forces to strengthen tolerance analysis software distribution in the ASEAN region.

Malaysia, Kuala Lumpur – July 18, 2023 – CYBERNET SYSTEMS MALAYSIA SDN.BHD. (CYBERNET Malaysia), today announced that they have signed an agreement with Sigmetrix LLC, a Texas Corporation, in the United States of America (Sigmetrix,) to distribute their tolerance analysis software in the ASEAN region.

Under this agreement, CYBERNET Malaysia will start distributing and supporting CETOL 6 Sigma (CETOL 6 σ ™) – a 3D tolerance analysis software tool, and EZtol, a 1-Dimensional tolerance stack up analysis program, in 11 ASEAN countries.

"We are excited about this new collaboration. As a company that has a widespread reach in the ASEAN countries, we hope to increase awareness about tolerance analysis solutions in the region and provide Sigmetrix software with localized support," said **Arnie Cheng, Managing Director of CYBERNET Malaysia**.

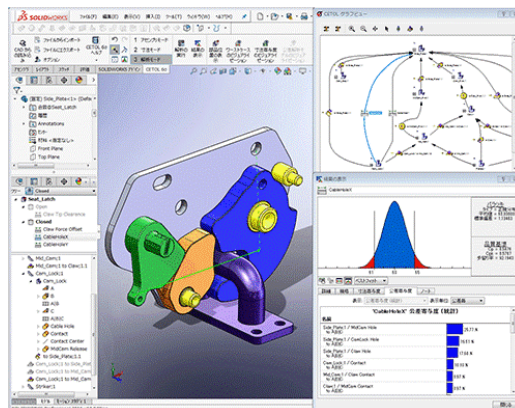

CETOL 6 σ

CETOL 6 σ is a 3D model-based tolerance analysis software that works directly with CAD model data from PTC® Creo®, CATIA®, SOLIDWORKS®, and Siemens NX™ without any additional requirement for data conversion. CETOL 6 σ can perform complex mechanical variation analysis of assemblies which is difficult to perform manually.

Product Benefits

- Maximize the return on your MBD/MBE investment.
- Improve profitability by balancing product quality and manufacturing cost.
- Achieve faster time to market by reducing design and prototype cycles.
- Deliver more innovative products through better understanding of mechanical variations.
- Capture, transfer, and retain critical product and process knowledge.

For more details on CETOL 6σ, visit <https://www.sigmetrix.com/products/cetol-tolerance-analysis-software>.

EZtol

EZtol provides an automated and more statistical approach to 1D stack-up analyses instead of tedious and time-consuming manual calculations defined in spreadsheets. EZtol works with most of the major CAD system file formats, and it does not require a CAD license to work on the model.

About Sigmetrix

Sigmetrix has been helping companies produce better products for over 20 years through a combination of software solutions, training, and consulting services that focus on managing the impact of mechanical variation. For more information, visit their website at <https://www.sigmetrix.com>.

(Sigmetrix is a CYBERNET group company)

About CYBERNET MALAYSIA

CYBERNET SYSTEMS MALAYSIA SDN.BHD., is a wholly-owned subsidiary of **CYBERNET SYSTEMS CO., LTD., Japan**. CYBERNET MALAYSIA supports its customers in Malaysia, Singapore, Thailand, Vietnam, and other countries of the ASEAN region. They provide a wide variety of products and services ranging from Computer-Aided Engineering (CAE) solutions including Photonics, Optics and VR design, Vehicle Simulation products, and Casting Simulation systems, to solutions that combine CAE with emerging technology for Digital Transformation such as the IoT, digital twins, big data analysis, and AI.
